Voice of the customer....

What do our customers Say

“Alleviated major items! Items on punchlist now are minor, can be easily fixed rather than tearing into a wall or ceiling.”

Paul Wagner, Project Manager, Jos. Schmitt & Sons Construction

Voice of the customer....

What do our customers Say

"It made our life easier."

Glenn Bailey, Director of Facilities, St. Joseph Medical Center

Voice of the customer....

What do our customers Say

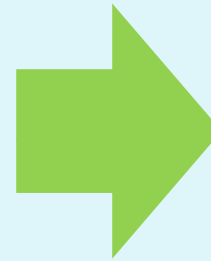

“The benefit we see in the Audits is a reduction of callbacks for the subs. It will reduce access above the ceiling once the tile is dropped.”

Jim Ziegler, Site Superintendent, Miron Construction

Voice of the customer....

What do our customers Say

“At building turnover we have all our OM warranties, literature... everything in development, on a disk. A dozen binders and rolls of drawings on one disk! All the submittals, truss shop drawings, everything, is very searchable. Great for use by the maintenance people in the field later. They don’t have to search through 12 binders for one piece of paper.”

Cody Benish, Project Manager, Horizon Design Build Manage

Voice of the customer....

What do our customers Say

“Helped eliminate a lot of punchlist items found on normal jobs. Owner can point out things as we walk through. Otherwise lots of rework, extra cost. The strongest benefit: Maintaining a schedule. Keeps main focus and drive on a certain area. It helped me manage the job. Setting schedules, making schedules. “

Rich Wagner, Site Superintendent, Jos. Schmitt & Sons Construction
